10.Whether IQAC received funding from any of the funding agency to support its activities during the year?	Yes
<ul style="list-style-type: none"> If yes, mention the amount 	10000
11.Significant contributions made by IQAC during the current year (maximum five bullets)	
<p>Comprehensive Data Management: The Internal Quality Assurance Cell of the Government College for Women, Thiruvananthapuram aims to improve the quality of education, community engagement, and research. To achieve this goal, the cell collects and analyzes data from various sources, such as monthly attendance records of staff and students, the creation of a master timetable, and the implementation of remedial teaching. These data points provide a comprehensive overview of the college's academic operations, which helps in monitoring attendance trends and analyzing educational support programs.</p>	
<p>Academic Performance Assessment: The review process extends to evaluating student performance, particularly identifying students who require additional support in specific subjects. This feature allows the institution to take proactive measures to address academic difficulties and implement targeted interventions, thus creating a supportive learning environment that promotes student success.</p>	
<p>Institutional Ranking and Accreditation: Participation in national ranking exercises such as the NIRF ranking demonstrates the institution's commitment to benchmarking its performance against peers and striving for excellence. Additionally, the preparation of Self-Study Reports (SSRs) contributes to accreditation processes, ensuring adherence to quality standards and continuous improvement in all aspects of institutional functioning.</p>	
<p>Pedagogical Innovation and Support: The institution's dedication to</p>	

innovative teaching methodologies and leveraging technology for enhanced learning outcomes is reflected in the tutorial system and online classes. These features provide flexibility, accessibility, promote active engagement, and academic excellence among students.

Infrastructure Development and Audit: Investing in infrastructure is a top priority for our institution. The investment in infrastructure, particularly the addition of instrumentation facilities, underscores the institution's commitment to providing state-of-the-art resources for teaching and research. Conducting regular infrastructure audits and academic/administrative audits further ensures the optimal utilization of resources and alignment with institutional goals, fostering a conducive environment for holistic education and research excellence.

12. Plan of action chalked out by the IQAC in the beginning of the Academic year towards Quality Enhancement and the outcome achieved by the end of the Academic year

Plan of Action	Achievements/Outcomes
<p>Inclusive Environment - Implement initiatives to foster an inclusive environment by promoting diversity, equity, and inclusivity across campus. The college respects the diversity of gender orientation within the women students community and also empathizes the students with disabilities.</p> <p>Representation of transgender students in college admission. Increase in facilities for the differently abled population.</p>	<p>Increased representation and participation from diverse student and faculty populations, creation of awareness programs, establishment of support mechanisms for marginalized groups, and enhanced cultural sensitivity and understanding among the campus community. Majority of the premises have been made differently abled friendly.</p>
<p>Enhancing Teaching-Learning Quality- Develop strategies to improve the quality of teaching and learning experiences through curriculum enhancement, faculty development programs, modern pedagogical approaches, and technology integration.</p>	<p>Enhanced student engagement, improved academic performance, adoption of innovative teaching methods, incorporation of experiential learning opportunities, and positive feedback from students and faculty members.</p>
<p>Industry- Academic Collaboration- Forge partnerships with industry stakeholders to bridge the gap between academia and the</p>	<p>One MoU was signed which helped the institution the exchange of knowledge, resources, industry-relevant projects, best</p>

<p>professional world, and facilitate knowledge exchange, internships, and research collaborations.</p>	<p>practices, and enhanced employability of graduates.</p>
<p>Community Outreach Engagements- Engage with local communities through outreach programs, social initiatives, and service-learning projects to address societal needs and contribute to community development.</p>	<p>Five villages were adopted under the Unnath Bharat Abhiyan scheme of Govt of India for leveraging with the neighboring villages. Neighborhood support groups and Balpanchayats were established, and awareness campaigns, gender sensitisation campaigns, skill training for children and adolescents, popularisation, and promotion of millets, and value-added products were carried out with the support of the volunteers from NSS/NCC and other student clubs.</p>
<p>Strengthening Research and Academic Writing Skills - Provide training and support for students, research scholars and faculty members to develop research skills, enhance academic writing proficiency, and foster a research culture within the institution.</p>	<p>Increased research output, publication of scholarly articles, participation in conferences and seminars, improved research methodologies, and recognition for academic excellence at regional and national levels.</p>
<p>Strengthening of Mentor- Mentee Relationships-Establish mentorship programs to facilitate personal and professional growth, provide guidance and support for students, and promote a culture of mentorship and collaboration.</p>	<p>Improved student retention and success rates, enhanced academic and career guidance, strengthened interpersonal relationships, mentorship networks, and a sense of belonging and support within the campus community</p>
<p>13. Whether the AQAR was placed before statutory body?</p>	<p>Yes</p>

2022-23	20/03/2024

15. Multidisciplinary / interdisciplinary

The college promotes multidisciplinary and interdisciplinary research. Centralized common instrumentation facilities (CCIF) have instruments that support research in bio-nano materials biosensors, and nanomaterials for different applications. The publications in reputed journals this year also support inter and multi-disciplinary works. The projects given to the students at under and postgraduate level gives them develop multidisciplinary skill. At Government College for Women, we have many interdisciplinary programs that integrate subjects like science, arts, humanities, social sciences, and more. These programs can be incredibly enriching as they encourage students to think critically, solve problems creatively, and approach challenges from multiple perspectives. At Government College for Women, we offer avenues for multidisciplinary studies with diverse and comprehensive approach to education. In multidisciplinary programs, students have the opportunity to study a variety of subjects across different fields, enabling them to gain a well-rounded understanding of various topics and develop a versatile skill set. Our College also encompass a wide range of subjects, including sciences, humanities, social sciences, arts, and more. This approach encourages students to explore their interests, think critically, and make connections between different disciplines. Besides, Statistics offers MDCs to Economics, Chemistry, Physics, Mathematics students. Meanwhile, Zoology offers courses to Botany and Homescience students

16. Academic bank of credits (ABC):

The idea of an Academic Bank of Credit (ABC) has been put forth as part of India's National Education Policy (NEP) 2020. By accumulating credits from numerous accredited higher education institutions, it seeks to provide students the freedom to select the courses and schools that best suit them. One advantage is that students can choose from a variety of subjects offered by several universities, including online courses, and can earn credits that can be applied toward their degree or transferred. Two, by choosing courses that fit their goal

ls, students can customize their academic path to fit their interests, professional aspirations, and learning style. Three, the ABC system might improve access to higher education by providing a wide variety of courses and the opportunity to earn credits through online platforms, particularly for women in rural or distant locations who would find it difficult to enroll in traditional on-campus programs. Furthermore, this approach encourages lifelong learning by enabling people to pursue lifelong learning and skill development, even after finishing official degree programs. Since Government College for Women is one of the top-rated higher education institutions in the country, we will be able to offer competitive courses in the segment.

17.Skill development:

Skill development is a critical aspect of higher education that helps students acquire the knowledge, skills, and attitudes necessary to succeed in their chosen careers. In Thiruvananthapuram, the government has taken several initiatives to promote skill development among women students in government colleges. These initiatives aim to equip women students with the necessary skills and knowledge to enter the workforce and contribute to the growth of the economy. One of the primary initiatives taken by the government in Thiruvananthapuram is the establishment of Skill Development Centers in government colleges for women. These centers offer training programs in various fields such as Information Technology, Healthcare, and Hospitality. The courses are designed to equip students with the skills and knowledge necessary to enter the workforce and succeed in their chosen careers. The courses offered are tailored to meet the needs of the local job market, ensuring that students are equipped with skills that are in demand. The government has also partnered with several industries and organizations to offer specialized training programs to women students. These programs provide hands-on training in specific fields, such as IT and healthcare, enabling students to gain practical experience and develop the necessary skills to succeed in their chosen careers. The programs also provide students with access to industry experts and mentors who can guide them in their career paths. In addition to training programs, the government has also taken steps to promote entrepreneurship among women students. Entrepreneurship programs are designed to help students develop the necessary skills to start their own businesses. The programs offer training in areas such as business planning, marketing, and finance, and provide students with access to mentors and business experts who can guide them in their entrepreneurial journey. The government also offers financial support to women entrepreneurs through various

schemes and programs. Another important initiative taken by the government in Thiruvananthapuram is the establishment of placement cells in government colleges for women. These cells work to connect students with potential employers and provide them with opportunities to showcase their skills and knowledge. The cells also offer career guidance and counseling to students, helping them make informed decisions about their future careers. The government has also taken steps to ensure that the education system in Thiruvananthapuram is aligned with the needs of the local job market. The government has introduced several vocational courses in government colleges for women that are designed to meet the needs of the local job market. These courses provide students with the necessary skills and knowledge to succeed in specific industries, such as healthcare and tourism. Overall, the government's initiatives in promoting skill development among women students in government colleges in Thiruvananthapuram are making a significant impact. These initiatives are helping women students acquire the necessary skills and knowledge to succeed in their chosen careers and contribute to the growth of the economy. The government's focus on entrepreneurship is also empowering women to start their own businesses and become job creators. The government's efforts to align the education system with the needs of the local job market are ensuring that women students are equipped with skills that are in demand. These initiatives are crucial in creating a more skilled and employable workforce and in promoting the overall economic development of the region.

18.Appropriate integration of Indian Knowledge system (teaching in Indian Language, culture, using online course)

The integration of Indian knowledge systems, including the teaching of Indian languages and cultures, is an important aspect of higher education in India. In Thiruvananthapuram, the government has taken several steps to integrate Indian knowledge systems in government colleges for women. These initiatives aim to promote cultural diversity, preserve India's rich cultural heritage, and provide students with a holistic education. One of the primary initiatives taken by the government is the promotion of Indian languages. The government has introduced courses in Indian languages such as Hindi, Malayalam, Tamil, and Sanskrit in government colleges for women. These courses are designed to help students develop proficiency in Indian languages and appreciate the rich cultural heritage associated with these languages. The courses also provide students with the necessary skills to communicate effectively in different parts of the country, thereby promoting cultural diversity. The government has also taken steps to promote Indian culture in

government colleges for women. Cultural events, such as dance and music festivals, are organized regularly to expose students to various aspects of Indian culture. The colleges also have clubs and societies that promote various forms of Indian cultures, such as classical music, dance, and art. These initiatives provide students with a platform to explore their interests and talents while promoting Indian culture. The use of online sources is another important aspect of the integration of Indian knowledge systems. The government has introduced online resources that provide students with access to various aspects of Indian culture and heritage. For example, the National Digital Library of India (NDLI) provides students with access to over 6.5 million books, journals, and other resources related to Indian culture and heritage. The use of online resources also promotes digital literacy among students, an essential skill in today's digital age. The government has also taken steps to integrate traditional Indian knowledge systems, such as Ayurveda and Yoga, into higher education. The government has introduced courses in Ayurveda and Yoga in government colleges for women. These courses provide students with a deeper understanding of traditional Indian knowledge systems and their relevance in modern times. The integration of traditional Indian knowledge systems also promotes alternative forms of healthcare and wellness. Overall, the government's initiatives in integrating Indian knowledge systems in government colleges for women in Thiruvananthapuram are making a significant impact. These initiatives promote cultural diversity, preserve India's rich cultural heritage, and provide students with a holistic education. The use of online sources provides students with access to a vast repository of knowledge related to Indian culture and heritage. The integration of traditional Indian knowledge systems in higher education promotes alternative forms of healthcare and wellness. These initiatives are crucial in creating a more informed and culturally aware student community, which is essential for the development of a strong and inclusive society.

19.Focus on Outcome based education (OBE):Focus on Outcome based education (OBE):

Outcome-based education (OBE) is an educational approach that focuses on designing learning activities and assessments that aim to achieve specific learning outcomes. The approach emphasizes the importance of aligning teaching with desired learning outcomes, ensuring that students acquire the necessary skills and knowledge to achieve their goals. In Thiruvananthapuram, government colleges for women have adopted the OBE approach to enhance the quality of education and ensure that students are better prepared for the workforce. The OBE approach has several benefits for both students and educators. First, the approach promotes a clear understanding of

what students are expected to learn and achieve by the end of a program. This clarity in learning outcomes helps students to focus their efforts and resources on the necessary skills and knowledge required to achieve their goals. Second, the approach helps educators to design and deliver effective instruction that is aligned with learning outcomes. This approach ensures that students receive the necessary support to meet the intended learning outcomes. The government colleges for women in Thiruvananthapuram have taken several steps to implement the OBE approach. First, they have revised their curricula to focus on specific learning outcomes. The learning outcomes are designed to align with the needs of the workforce and ensure that students acquire the necessary skills and knowledge to excel in their careers. The learning outcomes are developed with input from industry experts and employers to ensure that they are relevant and applicable to the workforce. Second, the government colleges for women have developed assessment methods that are aligned with the learning outcomes. The assessment methods are designed to measure the achievement of specific learning outcomes and provide feedback to students and educators on areas that need improvement. The assessments are designed to be fair, and transparent, and provide students with opportunities to demonstrate their skills and knowledge. Third, the government colleges for women have developed effective teaching methods that are aligned with the learning outcomes. The teaching methods are designed to be engaging, and interactive, and promote active learning. The methods are also designed to be adaptable and flexible, allowing educators to adjust the teaching methods to meet the needs of different learners. Finally, the government colleges for women have taken steps to ensure that students are better prepared for the workforce. They have established partnerships with industry experts and employers to provide students with opportunities to gain practical experience and develop the necessary skills for the workforce. The partnerships also help to ensure that the learning outcomes are relevant and applicable to the workforce. In conclusion, the government colleges for women in Thiruvananthapuram have adopted the OBE approach to enhance the quality of education and ensure that students are better prepared for the workforce. The approach focuses on aligning teaching with specific learning outcomes, designing effective assessments, and developing teaching methods that promote active learning. The approach also ensures that the learning outcomes are relevant and applicable to the workforce, providing students with opportunities to gain practical experience and develop the necessary skills to excel in their careers. The OBE approach is a crucial step towards ensuring that students receive a quality education that prepares them for the challenges of the future.

20.Distance education/online education:

Government College for Women, Thiruvananthapuram is one of the largest centres of distance education in the State with more than 1000 courses being offered for both adults and present students. Distance education provides access to education for individuals who may not be able to attend traditional on-campus classes due to various reasons such as geographical constraints, work commitments, or personal circumstances. In a large and diverse nation like India, where not everyone has access to high-quality educational institutions, this accessibility is especially important. Besides, it allows for both time and place flexibility. The ability to access lectures, course materials, and assignments whenever it is convenient for them helps students manage their academic obligations with those of their jobs or families. People with busy schedules and working professionals greatly appreciate this flexibility. Also, compared to typical on-campus programs, distance education programs frequently have lower tuition costs. Distance education have evolved to offer interactive and engaging learning experiences such as online lectures, multimedia resources, discussion forums, and virtual classrooms here. Also, it allows individuals to acquire new skills, upgrade existing ones, or pursue further education without the need to disrupt their careers or personal lives. Lifelong learning has become increasingly important in today's rapidly changing job market, where continuous skill development is essential for career advancement and staying competitive.

CURRICULAR ASPECTS

1.1 - Curricular Planning and Implementation

1.1.1 - The Institution ensures effective curriculum delivery through a well planned and documented process

As a premier center for higher education in the state of Kerala, Govt. College for Women, Thiruvananthapuram has taken all possible measures to offer effective and quality curriculum delivery. We also have various mechanisms for curriculum enrichment through a number of additional programmes. The foremost support is through our well-equipped Library with more than 1.25 lakhs books and journals. ICT tools are used extensively for classroom teaching. Use of Inflibnet, Edusat and Learning Management Systems greatly support the effective delivery of the core content of curriculum. In this era of information technology, the college has ensured all up to date online and offline learning resources to the academic community. Apart from the discussion of syllabus, lot of co-curricular activities are conducted in the college by all the departments to enrich curricular activities. These include annual seminars, workshops, training programmes, invited talks, exhibitions, debates, discussions etc. Experimental activities are of great importance in the learning process of science

disciplines. To fulfill this, the college has well-equipped laboratories with sophisticated instruments in all science departments. Centralized instrumentation facilities in the campus offer great support to the post graduate and research students in the campus.

1.1.2 - The institution adheres to the academic calendar including for the conduct of Continuous Internal Evaluation (CIE)

As Govt. College for Women, Thiruvananthapuram is affiliated to University of Kerala, the academic calendar of the university is followed in all teaching-learning activities. Admissions, continuous evaluation exams, online submission of continuous evaluation marks, dates of end semester examinations, declaration of results are outlined in the university academic calendar. From college level, we try our level best to ascertain minimum 90 working days in each semester, by following the academic calendar published by the University. The days lost due to unforeseen reasons are compensated by converting holidays to working days for conducting special classes. Admissions are done by the centralized allotment processes facilitated by the University through admission portal. Attendance statements of students for each semester are uploaded in the university portal and the hard copies are sent to the University. Continuous evaluation tests and model exams are conducted in the college level by individual departments by following the dates specified in the academic calendar. Students see and verify the marks. Grievances of students, if any, are attended and resolved before finalization of the scores. The college level monitoring committee (CLMC), headed by the Principal and convened by senior faculty member, makes sure that the calendar is closely followed.

1.3 - Curriculum Enrichment**1.3.1 - Institution integrates crosscutting issues relevant to Professional Ethics, Gender, Human Values, Environment and Sustainability into the Curriculum**

A large number of courses have been designed with the perspective of Enhancing environmental awareness, human values and gender equality. The second semester English common course (all UG programs) with the title 'Environmental studies' (EN1211.1) focuses on themes like renewable and non-renewable resources, conservation of natural resources and biodiversity, and disaster management. Introduction to Gender Studies (BAHE 155), is designed to appreciate gender as a socio-cultural concept. Philosophy of Values (PL 1131) sheds light on the definition and classification of values. Gandhian values of truth and non-violence are taught in the course on Gandhian philosophy (PL 1132, PY 241). Peace studies (PY 241) taught at UG and PG levels shed light on peace as a value. Applied Ethics (PL 1642, PY224) sensitize the students about gender ethics, environmental ethics and professional ethics.

The Malayalam course Prakrithi: Sidhanthavum Avishkaravum (ML1331) discusses ideas related to ecosystem in regional culture and literature. There are courses like Environmental Economics (BE222), Eco-literature in Hindi (HN 1232), and Environmental Physiology (Z0242). Some other courses that teach similar topics are Environmental Studies (BO 1542), Psychology in Context (PC211), and Environmental biology (BO222).

2.2 - Catering to Student Diversity

2.2.1 - The institution assesses the learning levels of the students and organizes special Programmes for advanced learners and slow learners

Government College for Women has effective mechanisms to cater the diverse academic needs of students from different socio-economic and academic backgrounds. As our undergraduate students are from different academic levels (higher secondary education such as Kerala state syllabus, CBSE, ICSE), we support them with appropriate mechanisms to bring the whole group together in the effective conduct of the programmes offered in our campus. Our vision is to fill the gap between the slow learner and the advanced learner and make every student in the campus an 'advanced learner'. The learning levels of the students are continuously assessed by the evaluation criteria of choice based credit and semester system (CBCSS) by tests, assignments and viva -voce. The slow learners are amply supported by special classes and individual doubt clearing discussions. Performance in the continuous evaluation examinations is timely evaluated and the results are shared and discussed with the students. Slow learners are given individual attention in solving their understanding and analysing issues in learning process. We are also giving a very good support to advanced learners. Diverse programmes such as seminars, workshops, interactive sessions, visits etc. are organized in providing those students with much exposure for academic growth and empowerment.

2.3 - Teaching- Learning Process

2.3.1 - Student centric methods, such as experiential learning, participative learning and problem solving methodologies are used for enhancing learning experiences

Our institution follows all possible student centric methods in successful and effective conduct of academic activities in the campus. Opportunities for experiential learning thorough hands-on training are made available to students whenever and wherever possible. The lab courses in science disciplines and in a few literature and arts disciplines are particularly offering great opportunities for experiential learning. The dissertation works included in the curriculum of all UG and PG programmes also provide the students a good opportunity for 'learning by doing'. Student participation in the learning process is given foremost importance. Apart from mere classroom lecturing and demonstrations, students are given enough room for sharing their learning experiences, suggestions and criticisms. Learners are benefitted by getting opportunities in presenting seminars and demonstrations in classrooms as part of the curriculum. Peer teaching with active student participation makes the learning process more enjoyable. Problem solving methods are well adopted in our learning practices. Innovative thinking and analytical skills are considerably improved by these exercises. Though the problem solving approach can be best practised in the science disciplines, in literature and arts disciplines also we are effectively following this approach by analysing and evaluating various cultural, historical, social and economic contexts and scenarios.

2.3.2 - Teachers use ICT enabled tools for effective teaching-learning process. Write description in maximum of 200 words

ICT enabled tools such as slide presentations, animations, videos, online resources, and online learning management systems such as MOODLE and google classroom are extensively used by our teachers for making the teaching more effective. Most of the classrooms are Wi-Fi enabled. Centralized computer browsing facilities in general library and in a few departments offer great support to the teachers and students in academi activities. Instead of mere classroom lecturing using conventional blackboards, we have provided smart boards, overhead projectors, interactive display panels, televisions, state of the art audio-visual facilities in many of the classrooms to enable the effective teaching. All teachers are well equipped and trained in using all these supporting facilities and this makes their teaching activities more communicative and interactive. Student seminars and presentations also are conducted occasionally using these facilities. College has taken many initiatives by giving training and demonstrations of those tools. Even after the pandemic period, academic community is getting the benefit of these online resources and interactions. AI tools like ChatGPT, ResearchRabbit, Consensus, TeachMate etc are being used by the teachers for teaching and research.

2.5 - Evaluation Process and Reforms

2.5.1 - Mechanism of internal assessment is transparent and robust in terms of frequency and mode. Write description within 200 words.

Internal assessment otherwise known as continuous evaluation as per the guidelines of Choice Based Credit and Semester System (CBCSS) is an important evaluation process in the curriculum of the University of Kerala, to which Government College for Women is affiliated. For UG programs, the CE marks of theory courses are 20% of the final result and for PG programs it comes to 25% of the aggregate. Attendance, assignment, and class tests are the components of the evaluation. The evaluation of each student is meticulously done considering content evaluation, and assessment of the assignments (not less than two assignments are to be submitted by the student in each course), scores obtained by the candidate in the tests conducted (minimum two such tests are conducted for each course in all semesters) are consolidated to get the CE scores. The college strictly follows the guidelines issued by the University of Kerala in awarding the CE marks. The evaluation process is conducted in a very transparent manner by intimating the students regarding the scores given in each component of the evaluation. CE tests and model tests for both theory and practical courses are timely conducted as per the academic calendar published by the University.

2.5.2 - Mechanism to deal with internal examination related grievances is transparent, time-bound and efficient

Internal evaluation, otherwise called Continuous Evaluation (CE) tests are regularly conducted in all theory and practical courses offered in all programs at Government College for Women as per the Regulation of the University of Kerala. The question papers are set as per the pattern of question papers published by the university. The exams are conducted with the same procedures followed in the end-semester university examinations. The results of the CE tests are timely published. Students are given the answer scripts for scrutiny and corrections or changes if any, will be done and the scores will be published. The CE marks are proportionally awarded in the test component of the total CE score and this will be added to the scores of other components (assignment) to consolidate the final CE score, which will be uploaded on the University website. The grievance of students during any stage of the CE process will be reviewed by the Department Level Monitoring Committee (DLMC). Once the marks are forwarded to the Principal level, grievances, if any, will be considered by the College Level Monitoring Committee (CLMC). Any further grievance about CE marks will be taken up by the University Level Monitoring Committee (ULMC).

2.6 - Student Performance and Learning Outcomes

2.6.1 - Programme and course outcomes for all Programmes offered by the institution are stated and displayed on website and communicated to teachers and students.

Since 2020, the University of Kerala has implemented outcome-based syllabi for all undergraduate (UG) and postgraduate (PG) programs affiliated with the institution, including Government College for Women, Thiruvananthapuram. The revised syllabi clearly define both program-specific outcomes (PSO) and course outcomes (CO), with each topic categorized according to the appropriate cognitive level, such as remember level (R), understand level (U), and apply level (A). These syllabi have been made available on the university's website, with the web link also provided on our college's website. To facilitate this new approach to education, teachers have received training in outcome-based education through seminars and workshops hosted by the university and other higher educational institutions. Students, too, have been given

orientation on the syllabus and curriculum, with the aim of better understanding the outcome-based education model. Hard copies of the syllabi for all programs are available in their respective departments for both teachers and students to reference, while soft copies are distributed to students upon enrollment. The importance of outcome-based education is emphasized during induction meetings for all UG and PG programs. In all classroom and laboratory settings, course outcomes specified against each topic in the syllabi are followed diligently. By adopting this new approach, the University of Kerala and affiliated institutions like our college hope to better prepare students for the demands of the modern workforce by equipping them with a range of practical skills and knowledge. Now, outcome based education is being extended to UG programmes too.

2.6.2 - Attainment of Programme outcomes and course outcomes are evaluated by the institution.

In line with our status as an affiliated institution, all academic activities in our college are coordinated in accordance with the guidelines and instructions of the University of Kerala. The university has adopted an outcome-based syllabus structure. This involves the restructuring and revision of all programmes to incorporate programme outcomes and course outcomes. The revision of syllabi in all disciplines has been overseen by the respective academic board of studies, which includes several faculty members from our college serving as either chairperson or members. The revised syllabus structure has been thoroughly discussed in our academic forums. The achievement of programme outcomes and course outcomes is to be evaluated using appropriate methods. At the college level, this is done through continuous evaluation, which includes written and oral examinations to assess the attainment of envisaged outcomes. Government College for Women, Thiruvananthapuram strives to implement an outcomebased curriculum format and closely monitor learning progress through active teacher-student interactions.

The student feedback mechanism has a component of outcome based syllabus evaluation which is being collected formally by a questionnaire and informally in personal meetings, alumni meets, get togethers etc.

3.2 - Innovation Ecosystem

3.2.1 - Institution has created an ecosystem for innovations and has initiatives for creation and transfer of knowledge

Government College for Women, Thiruvananthapuram has established a thriving ecosystem for fostering innovation and knowledge creation through its state-of-the-art Instrumentation Facility. As described on the college's website, the facility serves as a catalyst for scientific research and technological advancements, propelling the college to the forefront of academic excellence (source: <https://gcwtvm.ac.in/best-practices/stateinstrumentation-laboratory/>). Instrumentation Facility at the Government College for Women offers a comprehensive range of sophisticated equipment and instruments. Students and faculty members have access to cutting-edge resources, enabling them to engage in groundbreaking research across diverse disciplines. This facility not only enriches their educational experience but also equips them with practical skills in advanced instrumentation techniques. To promote the creation and transfer of knowledge.. It conducts regular workshops, seminars, and training programs that enhance the technical proficiency of participants. Furthermore, the college actively encourages research and innovation through research-oriented events and competitions. Students are motivated to undertake research projects, present their findings at prestigious national and international conferences, and publish their work in renowned scientific journals.

Government College for Women has created an Earn-while-learn program and the program is having linkage with industry by way of regular supply of soaps and intake of inputs in the making.

3.4 - Extension Activities

3.4.1 - Extension activities are carried out in the neighborhood community, sensitizing students to social issues, for their holistic development, and impact thereof during the year

Extension activities are carried out in the neighborhood community, sensitizing students to social issues, for their holistic development, and the impact thereof during the year. The outreach activities are carried out in the neighborhood communities to sensitize students about the social issues that are vital for their holistic development. This also provides a positive outlook towards social issues among the students and the community alike. The NCC, NSS, and UBA cell together with various clubs create awareness campaigns, livelihood training, medical camps, lectures, and invited talks to sensitize the community on issues related to health, nutrition, mental well-being, environmental issues, and behavior modifications. Field visits are carried out as part of the curriculum for gaining first-hand information about the community. The college has adopted five villages under the Unnat Bharat Abhiyan scheme for fostering the holistic development of the villages. Student volunteers and the faculty regularly visit these villages and carry out activities in collaboration with the local self-help groups, Kudumbasree units, District Panchayats, ICDS projects, Neighbourhood schools, and NGOs.

INFRASTRUCTURE AND LEARNING RESOURCES

4.1 - Physical Facilities

4.1.1 - The Institution has adequate infrastructure and physical facilities for teaching- learning. viz., classrooms, laboratories, computing equipment etc.

Government College for Women in Thiruvananthapuram boasts a sprawling campus, spanning across 10.65 acres, nestled in the heart of the city. Its prime location allows for easy accessibility, situated within walking distance from the central bus stand and railway station. Each year, approximately 1000 students enroll in the college, resulting in a vibrant community of more than 3000 students. To cater to the academic needs of its students, the campus is equipped with 20 buildings dedicated to the process of teaching and learning. These structures house a multitude of facilities, including 110 classrooms, 15 science laboratories, 3 instrumentation rooms, 2 museums, 1 psychology lab, and 1 dark room. The college also boasts a Concert Hall for music enthusiasts, a General Library, a Girls Waiting Room, 13 department libraries, 30 staff rooms, 7 seminar halls, and a cooperative store that supports the smooth functioning of academic and co-curricular activities. In addition to the standard laboratories, the campus boasts a centralized common instrumentation facility, exclusively designed to offer access to advanced and specialized scientific instruments. This facility greatly enhances the learning experience for students pursuing scientific disciplines.

4.1.2 - The Institution has adequate facilities for cultural activities, sports, games (indoor, outdoor), gymnasium, yoga centre etc.

Government College for Women in Thiruvananthapuram showcases an exceptional display of talent and proficiency in the realms of arts, sports, and cultural activities, leaving an indelible mark in state and national-level competitions. The cornerstone of its cultural activities is the grand auditorium, accommodating an impressive audience of 1000. In addition to this magnificent venue, the college utilizes various other spaces for cultural

events, such as the Open Auditorium, Assembly Hall, Concert Hall, and several Seminar Halls dedicated to subjects like Chemistry, Physics, Zoology, Botany, English, ORICE, and Conference rooms, not to mention the classrooms. The college places great emphasis on sports, providing students with comprehensive training in an extensive array of disciplines.

From football to handball, rugby to netball, and softball to baseball, students have ample opportunities to excel. The college also offers coaching in cricket, kabaddi, kho-kho, hockey, archery, fencing, ball badminton, shuttle badminton, table tennis, tennis, judo, boxing, wrestling, weightlifting, powerlifting, wushu, taekwondo, and athletics. The institution is well-equipped with all the necessary sporting equipment, including items like canopies, discuses, javelins, and archery bows. Furthermore, yoga sessions are conducted in the multi-purpose indoor hall, promoting holistic well-being among the students.

4.2 - Library as a Learning Resource

4.2.1 - Library is automated using Integrated Library Management System (ILMS)

The Government College for Women in Thiruvananthapuram boasts a remarkable and venerable institution: its library, established in 1897, stands as one of the oldest college libraries in Kerala. In 2017, the library operations underwent a significant transformation with the implementation of KOHA, specifically version 16.05.05.

KOHA presents an unparalleled advantage by offering comprehensive customization and absolute control over library data, all at a fraction of the cost associated with proprietary systems. This remarkable software caters to the diverse requirements of various libraries and excels in its web accessibility and user-friendly interface.

At its core, KOHA functions as an Integrated Library Management System, showcasing an array of remarkable features that streamline operations: The full catalogue module empowers library staff to capture detailed information about all library items. This module adheres to MARC standards and is also z39.50 compliant, enabling simplified data entry and exchange. The circulation module automates the borrowing and management of library items, seamlessly integrating with the Online Public Access Catalogue (OPAC). Users can conveniently track the items they have borrowed or reserved. The OPAC module provides library users with a straightforward and intuitive interface to perform various tasks, including item searches, reservations, and suggestions for new items.

4.3 - IT Infrastructure

4.3.1 - Institution frequently updates its IT facilities including Wi-Fi

The college boasts state-of-the-art facilities that ensure uninterrupted internet service throughout the campus, catering to the diverse needs of its academic community. A comprehensive range of e-learning resources and online platforms are readily accessible, enriching the educational experience for all. At the heart of the college, the general library houses a centralized internet browsing facility. Each department has taken measures to ensure an ample number of computers with internet connectivity, facilitating seamless access to information. In pursuit of excellence, our institution continually updates its connectivity features.

Government College for Women, Thiruvananthapuram is part of Kerala Fibre Optic Network (K-FON) is a public-funded initiative by the Government of Kerala. Kerala is the first state in India to declare internet as a basic right. Government of Kerala aims to provide high-speed Internet connectivity to the whole Kerala. It is the project launched in February 2021 to ensure universal internet connectivity addressing the issue of the digital divide, and connecting 2 (BPL) families in Kerala, KFON got the Internet Service Provider Licence from the DoT in 2022, making Kerala the first Indian state to have its own Internet service.

4.4.2 - There are established systems and procedures for maintaining and utilizing physical, academic and support facilities - laboratory, library, sports complex, computers, classrooms etc.

We consistently prioritize the appropriate utilization and upkeep of all facilities and infrastructure within our institution, including laboratories, libraries, sports complexes, internet and computer facilities, and classrooms. Our primary focus is on maximizing the use of all available resources to foster academic growth and development. To ensure the smooth functioning of maintenance and repair activities, we have established a well-

structured mechanism, receiving support from the state government, UGC, and RUSA. Minor maintenance and repair tasks are facilitated by college-level bodies such as the Parent Teacher Association (PTA), College Development Council (CDC), and Continuing Education Sub Centre (CESC). The utilization of funds strictly adheres to the regulations set by the state government, following standardized protocols that guarantee quality and financial integrity. Asset maintenance projects are undertaken on a quinquennial basis, with financial assistance readily sanctioned by the relevant authorities whenever necessary. Repairs and painting activities are promptly carried out to maintain the condition of our infrastructure. Notably, several blocks within our college possess historical significance, being over a century old and recognized as heritage buildings. We meticulously handle the maintenance of these sections, adhering to the prescribed guidelines for the preservation of heritage monuments as stipulated by the Government of India.

5.3.2 - Institution facilitates students' representation and engagement in various administrative, co-curricular and extracurricular activities (student council/ students representation on various bodies as per established processes and norms)

The administration at Government College for Women is committed to prioritizing the needs and experiences of students in all aspects of college life. Efforts are made to streamline the admission process and provide comprehensive student support services. Regular feedback from students is collected and analyzed to enhance the quality of teaching and infrastructure. An elected student body headed by the union chair person is responsible for coordinating and overseeing all student-centered activities on campus. The union chairperson is also a member of the college council, an advisory body that assists the Principal in managing day-to-day operations and resolving issues of general interest. Other members of the student union include the vice-chairperson, general secretary, arts club secretary, sports secretary, magazine editor, two university union councilors, and five class representatives. The department associations, headed by elected student secretaries, organize various academic and extracurricular events. Additionally, students are given representation in important bodies such as IQAC, library advisory committee, college development council, and canteen committee. Students also have the opportunity to participate in co-curricular programs and additional skill acquisition programs (ASAP) to enhance their overall skill

set.

5.4 - Alumni Engagement

5.4.1 - There is a registered Alumni Association that contributes significantly to the development of the institution through financial and/or other support services

The role of alumni in the growth and development of academic institutions is crucial. The oldest women's college in the state of Kerala boasts a large number of alumni from diverse strata of society, including former teachers and researchers. The alumni association conducts regular activities with good participation and programs, as many present faculty members are former students of the college. The executive body of the alumni association is constituted for the smooth functioning of the association, and there are alumni associations for various departments. The alumni provide financial support to the departments and offer scholarships and awards to meritorious students. They also donate books and other needed items to the respective departments and classes and offer financial support to economically backward

students on campus. In times of distress, the alumni raise funds and contribute to relief activities. The college invites alumni for presentations on issues to be addressed, and an alumni member is included in the IQAC to monitor and evaluate activities. The alumni association also offers academic support through special classes and invited talks. The alumni members are a valuable source of input for drafting the institutional development plan and implementation of infrastructure development and academic activities.

GOVERNANCE, LEADERSHIP AND MANAGEMENT

6.1 - Institutional Vision and Leadership

6.1.1 - The governance of the institution is reflective of and in tune with the vision and mission of the institution

Government College for Womenen visions providing education in basic science and humanities, with a mission to empower girl students to face the world with courage and confidence. Teachers are the backbone, facilitating curricular, co-curricular, and extracurricular activities. They contribute to course design, curriculum development, teaching, and evaluation. Many teachers hold positions in the University of Kerala's academic bodies. The College council, led by the principal and comprising department heads and elected teachers, coordinates campus activities. The college development council, with the principal and select teachers, receives support from the district administration for campus development. The Parent Teacher Association monitors college functioning and offers support. Our teachers focus on promoting research and learning, with an active researchcommittee. They foster academia-industry linkage and equip students with

advanced techniques to solve societal problems. Teachers run the common instrumentation center and facilitate nonformal educational services. They transform students into balanced personalities through monitoring bodies and activities. Teachers also coordinate clubs, cells, NSS, NCC, arts, sports events, and serve on various committees. Students are the centre of the system and the College offers the platform for excelling in academic and organisational leadership making them bold and powerful citizens in the country.

6.1.2 - The effective leadership is visible in various institutional practices such as decentralization and participative management.

Government College for Women ensures decentralization and participative management in academics, administration and finances. For eg, the mode of utilization of various funds sanctioned by the Department of Collegiate Education meet the developmental and consumable requirements of the college. The College has been given the devolution rights of the funds generated by it. Besides, the government provides matching grants to complement our efforts. Procurement of furniture, Laboratory and library maintenance, regular renovation and repair, conducting academic programmes like seminars and workshops are met with the utilization of plan funds. All the institutional development activities are outlined first in College Council, chaired by the principal, and after preliminary level discussions on various proposals, the Heads of Departments would later convene department level staff meetings and the proposals are drafted based on the collective efforts of the teaching community and students. The preliminary level proposals are further consolidated and discussed in college council meetings for finalization. In the case of department level and college level fund proposals to the agencies like UGC, and Dept. of Higher education, Govt. of Kerala, also similar procedure is followed. The purchase committee of the college coordinates the purchase process

6.2 - Strategy Development and Deployment

6.2.1 - The institutional Strategic/ perspective plan is effectively deployed

Government College for Women ensures that the perspective plan is effectively deployed. It starts with the making of fht plan itself. The methodology of preparing Institutional Development Plan itself was such a process. Since preparation of IDP requires collective wisdom, we have tried to incorporate views of all possible stakeholders. To assist the College planning board for preparing the proposal, a meeting of all the Heads of Departments and one representative from each department was formed. In the meeting, suggestions regarding College level (overhead) academic and associated plans were sought, department level academic and associated inputs were solicited. The Planning Board reviewed the progress of the tasks through the departmental representatives periodically. These proposals were finally consolidated by the core committee. The committee also held series of meetings with students, student representatives, parents, parent representatives, elected representatives etc. All the suggestions have been noted down and presented before the committee meeting and incorporated after discussions. The College also has multiple channels of communication in social media and personalised systems for sharing the Insitution's vision. Staff meetings and committee meetings are regularly held and all members are part of many committees which gives them a flavour of the vision.

6.2.2 - The functioning of the institutional bodies is effective and efficient as visible from policies,

administrative setup, appointment and service rules, procedures, etc.

Government College for Women is headed by a special grade Principal who is assisted in the work of administration by a body of ministerial staff headed by the Administrative Assistant. The academic activities of the College are orchestrated by the College council that comprises the Principal, Vice-Principal, the twenty-four Heads of the Departments and elected representatives. The activities of each department are spearheaded by the Heads of the Department who work in consultation with the faculties and students of the department. The faculty as well as the ministerial staff are appointed through Kerala PSC and are bound by the Kerala Service Rules. The college administration is also advised by the College Development committee headed by the District Collector. Principal, teachers, students, administrative staff and PWD assistant engineers are its members. The college has a dynamic IQAC that intervenes constructively in the curricular and extracurricular activities of the college. The PTA of the college plays a pivotal role in the smooth functioning of the college. The college has a Planning Board that acts as an advisory board to the principal. CLMC looks into aspects such as curriculum planning, conduct of internal and external examinations, and uploading of data.

6.3.5 - Institutions Performance Appraisal System for teaching and non- teaching staff

Government College for Women, Thiruvananthapuram, has an effective performance appraisal system for ensuring quality in academics and administration. Self and peer evaluations, along with academic audits, ensure standards in higher education. The college has a robust performance assessment system as part of its quality assurance program. Annual Quality Assurance Reports reflect curricular, co-curricular, and extracurricular activities. Teachers undergo annual evaluations through performance-based appraisal reports, summarizing their teaching workload, academic roles, examination responsibilities, participation in events, research contributions, and awards. Claims made by teachers are verified by the department head, IQAC team, and certified by the Principal. The evaluation process encourages self-evaluation and career development. The system accurately assesses individual curricular growth and academic output. Placement and promotion follow UGC regulations implemented by the Department of Collegiate Education, Govt. of Kerala. IQAC mediates the placement and promotion processes, forwarding applications to higher authorities. The AQARs provide consolidated data for teaching staff appraisals. IQAC analyzes self-appraisal reports for quality enhancement, research data, and infrastructure planning. Institutional development plans are based on staff performance and evaluation. Non-teaching staff promotions follow the Kerala Service Rules (KSR) through confidential reports prepared by the controlling officer

6.4 - Financial Management and Resource Mobilization

6.4.1 - Institution conducts internal and external financial audits regularly Enumerate the various internal and external financial audits carried out during the year with the mechanism for settling audit objections within a maximum of 200 words

Our college, a government institution under the Dept. of Collegiate Education in Kerala, undergoes annual internal and external audits. Internal audits include department-wise stock verifications by staff, followed by a formal annual audit of all assets. A stock verification committee facilitates this process, reporting any discrepancies found in the stock registers. Irreparably damaged items are listed for disposal. Additionally, the college's accounts section conducts internal financial audits to ensure compliance with state and department rules. External audits by the Department of Collegiate Education thoroughly examine financial transactions, attendance records, and other aspects. The office of the Accountant General occasionally audits previous years' accounts. Audits by chartered accountants cover accounts of PTA, Continuing Education Sub Centre, UGC, and DSTFIST. The Government of Kerala's stores and purchase department conducts audits every five years, including funded seminars and workshops. Queries and objections raised during audits are addressed, and refunds are made as required. These audits ensure adherence to rules and proper financial conduct. The IQAC conducts internal and external academic, administrative, green, environment, and energy audits annually.

6.4.3 - Institutional strategies for mobilization of funds and the optimal utilization of resources

Government College for Women receives financial support from diverse sources. As a government institution in Kerala, our college relies on annual plan fund allocations for education. These funds cover expenses for books, laboratory supplies, furniture, ICT resources, and maintenance. Special assistance enables us to construct new buildings and upgrade existing facilities. Additionally, national agencies such as UGC, RUSA, and DST (FIST) contribute to institutional development and procurement of instruments. Detailed proposals and committee discussions ensure careful fund allocation. The college planning board and Staff Council oversee implementation, while departmental funding decisions are made in council meetings. The purchase and projects committees handle instrument purchases, while the building committee monitors construction and renovation, ensuring compliance with green protocols. Fund raising efforts involve the Parent Teacher Association, Alumni Association, and College Development Council. PTA funds support student support and amenities. We collaborate with the Centre for Adult Continuing Education & Extension of the University of Kerala, receiving financial support for our facilities. Internal revenue is generated by renting out auditoriums and providing instrumentation facilities. This revenue covers operational and maintenance costs. The college infrastructure is also utilized for external examinations and distance education programs. Our planned approach to fund mobilization and resource utilization is highly valued.

6.5 - Internal Quality Assurance System

6.5.1 - Internal Quality Assurance Cell (IQAC) has contributed significantly for institutionalizing the quality assurance strategies and processes

Government College for Women, Thiruvananthapuram, has made significant strides in institutionalizing quality assurance strategies and processes, thanks to the commendable efforts of its Internal Quality Assurance Cell (IQAC). The IQAC has played a pivotal role in ensuring and enhancing the overall quality of education at the college. GCW IQAC has implemented various initiatives aimed at promoting academic excellence, research, and the overall development of the institution. It has formulated and executed policies to ensure adherence to quality standards in teaching, learning, and evaluation processes. The IQAC has been instrumental in conducting periodic academic and administrative audits, facilitating the timely introduction of new programs and courses, and continuously monitoring and reviewing the quality of teaching and research. It has also actively engaged in faculty development programs, encouraging teachers to upgrade their skills and knowledge. Furthermore, the IQAC has fostered a culture of research

and innovation by supporting research projects and seminars, and promoting collaborations with other institutions and industries. It has encouraged the faculty to publish their research findings in reputed journals, thereby enhancing the academic reputation of the college.

6.5.2 - The institution reviews its teaching learning process, structures & methodologies of operations and learning outcomes at periodic intervals through IQAC set up as per norms and

recorded the incremental improvement in various activities

Despite having ten research departments in Government College for Women, but faced challenges with limited research guides and subpar publications. The IQAC improved research facilities and enrolment of external supervising teachers. Our faculty achieved publications in peer-reviewed journals with high impact factors. The college has internet connectivity, computer labs, and smart classrooms. The Women's College Library, established in 1897, received funding and a new building. It has centralized networking, UPS, internet access, and a cyber center. The library has sections for reading, periodicals, references, and general and

Malayalam books. It also offers research facilities and eresources. With above 1.25 lakh books and subscriptions to newspapers and periodicals, the library is fully automated and provides access to e-books and e-journals through NLIST. It is part of a library cluster, conducts extension activities, and offers support to all members. Opening from 9:30 am to 4:30 pm on working days, it plays a crucial role in the college community. The IQAC coordinator briefs the measures needed to improve the academic quality of different disciplines and students in all the council meetings and interactions. The IQAC facilitates teachers in their career advancement scheme (CAS) as it is the nodal agency to actualise CAS in Kerala.

INSTITUTIONAL VALUES AND BEST PRACTICES

7.1 - Institutional Values and Social Responsibilities

7.1.1 - Measures initiated by the Institution for the promotion of gender equity during the year

During the academic year 2022-23, the Institution Govt. College for Women undertook various measures to promote gender equity and create an empowering environment for its students. Recognizing the importance of gender equality, the institution implemented numerous initiatives and programs. To address gender-based discrimination and violence, the college organized workshops and seminars on gender sensitization. These sessions aimed to raise awareness about gender biases and stereotypes, encouraging students to challenge and overcome them. Additionally, the college collaborated with local NGOs and experts in the field to provide counseling and support services for students who may have experienced gender-related issues. In order to empower women academically and professionally, the institution offered skill development programs and career guidance workshops. These initiatives equipped female students with the necessary knowledge and skills to excel in their chosen fields, fostering gender equity in education and the workforce. Furthermore, the college actively encouraged female students to participate in extracurricular activities and leadership roles, providing opportunities for their personal growth and self-expression.

7.1.3 - Describe the facilities in the Institution for the management of the following types of degradable and non-degradable waste (within 200 words) Solid waste management Liquid waste management Biomedical waste management E-waste management Waste recycling system Hazardous chemicals and radioactive waste management

Govt. College for Women follows a three prong strategy for waste management - reduction of waste generation, improving facilities for in and off campus processing of waste, promoting a clean campus through behavioural change programmes. Reduction of waste generation is mainly achieved through adoption of green protocol. Steel cups and containers, cloth banners, bags etc which are alternatives to plastic materials are promoted while conducting functions. The NSS unit of the college lends steel containers for use in various functions. The quantity of organic waste generated in the college being less, the college relies mainly on off campus processing of the same. Plastic wastes in the campus are collected by Trivandrum Municipal Corporation on a monthly basis. The biodegradable waste generated in all blocks including that of the canteen is being packed and transported to the waste processing centre of Trivandrum Municipal Corporation on a daily basis. Fourteen incinerators are installed various spots in the college for the disposal of sanitary pads. Besides, we are on the path to

sustainable menstruation and minimise even use of sanitary pads among menturators. We follow a green campus policy where no single use plastics are permitted.

7.1.8 - Describe the Institutional efforts/initiatives in providing an inclusive environment i.e., tolerance and harmony towards cultural, regional, linguistic, communal socioeconomic and other diversities (within 200 words).

Diversity and inclusion are the fundamental pillars of success within any organization. At our college, we take great pride in cultivating an inclusive academic environment that caters to the needs of both our students and faculty. To foster a spirit of inclusiveness, various departments and clubs have orchestrated a wide array of activities. Moreover, we actively encourage our students to engage in competitions organized by diverse linguistic groups, such as the Saiva Prakasha Sabha. On the academic front, we arranged an applied theory workshop in Tamil to familiarize our students with theoretical concepts in their native language. Symbolizing the sense of community within our student body, the Ezhuthani Tree stands tall on our campus as a visual metaphor. Committed to making a positive impact beyond our college walls, our students collaborate with Kanal, an NGO dedicated to women's empowerment, to collect and distribute books to children in tribal settlements. They also organize street plays that shed light on pressing socio economic issues faced by young adults. Additionally, our students run "Kootu," a scribe bank, where they assist their visually-impaired college mates, demonstrating remarkable empathy and support.

7.1.9 - Sensitization of students and employees of the Institution to the constitutional obligations: values, rights, duties and responsibilities of citizens

Sensitizing students and employees of an institution to constitutional obligations is a crucial aspect of fostering a well-informed and responsible citizenry. At Government College for Women, such sensitization has been achieved through a variety of programs and initiatives that emphasize values, rights, duties, and responsibilities of citizens.

1. Curriculum Integration:

- **Civics and Ethics Courses:** Incorporate subjects related to constitutional law, human rights, and

ethics into the curriculum. Courses can cover the Indian Constitution, fundamental rights and duties, and the importance of democratic values.

2. Workshops and Seminars:

- **Guest Lectures:** Invite experts, such as legal scholars, human rights activists, and government officials, to speak on constitutional obligations and civic responsibilities.

3. Awareness Campaigns:

- **Posters and Brochures:** Distribute informational materials across the campus to educate about fundamental rights, duties, and constitutional values.
- **Digital Campaigns:** Use social media, emails, and the institution’s website to share information and resources related to constitutional obligations.

4. Celebration of National Days:

- **Constitution Day:** Organize events on Constitution Day (November 26th) to commemorate the adoption.
- **Republic Day and Independence Day:** Host events that celebrate these significant days with programs that highlight the importance of the Constitution and the duties of citizens

7.1.11 - Institution celebrates / organizes national and international commemorative days, events and festivals

Celebrations are reminders of our legacy with the past and connections to the future. It brings together all segments of the stakeholders of the campus, students, teachers and noteaching segment and parents too. The college believes in celebrating events and festivals as an integral part of learning and building a strong cultural bonding. The College celebrates the national and international days, events and festivals throughout the year. After the loss of almost two academic years due to the pandemic, in academic year 2022-23, we celebrated the following days like Onam, Christmas, Ramzan, Women's Day, World Environment Day, International Yoga Day, National Mathematics Day, National Statistics Day, Independence Day, Republic Day, National Unity Day, Teachers Day, Birth Anniversary of Mahatma Gandhi. The college also believes that education will allow the students to platform where they know the diversity and thus tolerance. The College organizes all these activities throughout the academic year. These activities of celebrations and organizations of important events, commemorative days and festivals have become influential and the participation of all students from different walks of life is amazing. Importance of national festivals and events preach them and remind us about our country's cultural heritage and history.

7.2 - Best Practices

7.2.1 - Describe two best practices successfully implemented by the Institution as per NAAC format provided in the Manual.

Government College for Women, Thiruvananthapuram has established a thriving ecosystem for fostering innovation and knowledge creation through its state-of-the-art Instrumentation Facility. As described on the college's website, the facility serves as a catalyst for scientific research and technological advancements, propelling the college to the forefront of academic excellence (source: <https://gcwtvm.ac.in/best-practices/stateinstrumentation-laboratory/>). Instrumentation Facility at the Government College for Women offers a comprehensive range of sophisticated equipment and instruments. Students and faculty members have access to cutting-edge resources, enabling them to engage in groundbreaking research across diverse disciplines. This facility not only enriches their educational experience but also equips them with practical skills in advanced instrumentation techniques.

Continuing Education Sub Centre is an Institution run in the Government College for Women for the last thirteen years. There are at present 14 teachers and three office staff under this sub Centre which was started with the aim of equipping women employments themselves. The Centre is now conducting 344 courses and 11804+1673 app. course persons have successfully completed their studies from this Centre. As there is no age limit for attending courses in this Centre.

7.3 - Institutional Distinctiveness

7.3.1 - Portray the performance of the Institution in one area distinctive to its priority and thrust within 200 words

State Instrumentation Facility at the Government College for Women, Thiruvananthapuram provides an array of advanced scientific instruments and equipment that is utilized by more than 100 institutions across India on a payment basis. The facility offers a range of advanced research instruments that includes a 400 MHz NMR Spectrometer, Nano fiber electro spinning unit, spin coating unit with UV quavering, Hydro thermal reactor, Vacuum hot air oven, Ultrasound sonicate probe type, Spectro Fluorimeter, PAGE-Western Blot combo apparatus, Laminar Airflow for cell culture, Liquid nitrogen storage cylinder, Real-Time PCR with UPS

and battery, Distillation unit, Variable temperature measurement setup, Julabo collar, Portable ice maker, Rota vapor, Dewar flask, Ultra centrifuge, Vacuum Spray Pyrolysis Automated Equipment, Digital Magnetic Stirrer with Hot plate, Potentiostat, and Impedance spectrometry, SILAR Coating System with Magnetic Stirrer and Ultrasonic Bath Stand. The facility has been successful in generating over 2.75 lakhs of revenue, which is used for maintaining the instruments.

Part B

CURRICULAR ASPECTS

1.1 - Curricular Planning and Implementation

1.1.1 - The Institution ensures effective curriculum delivery through a well planned and documented process

As a premier center for higher education in the state of Kerala, Govt. College for Women, Thiruvananthapuram has taken all possible measures to offer effective and quality curriculum delivery. We also have various mechanisms for curriculum enrichment through a number of additional programmes. The foremost support is through our well-equipped Library with more than 1.25 lakhs books and journals. ICT tools are used extensively for classroom teaching. Use of Inplibnet, Edusat and Learning Management Systems greatly support the effective delivery of the core content of curriculum. In this era of information technology, the college has ensured all up to date online and offline learning resources to the academic community. Apart from the discussion of syllabus, lot of co-curricular activities are conducted in the college by all the departments to enrich curricular activities. These include annual seminars, workshops, training programmes, invited talks, exhibitions, debates, discussions etc. Experimental activities are of great importance in the learning process of science disciplines. To fulfill this, the college has well-equipped laboratories with sophisticated instruments in all science departments. Centralized instrumentation facilities in the campus offer great support to the post graduate and research students in the campus.

Link for Additional information	https://gcwtvm.ac.in/academics/academic-calendar/

1.1.2 - The institution adheres to the academic calendar including for the conduct of Continuous Internal Evaluation (CIE)

As Govt. College for Women, Thiruvananthapuram is affiliated to University of Kerala, the academic calendar of the university is followed in all teaching-learning activities. Admissions,

continuous evaluation exams, online submission of continuous evaluation marks, dates of end semester examinations, declaration of results are outlined in the university academic calendar. From college level, we try our level best to ascertain minimum 90 working days in each semester, by following the academic calendar published by the University. The days lost due to unforeseen reasons are compensated by converting holidays to working days for conducting special classes. Admissions are done by the centralized allotment processes facilitated by the University through admission portal. Attendance statements of students for each semester are uploaded in the university portal and the hard copies are sent to the University. Continuous evaluation tests and model exams are conducted in the college level by individual departments by following the dates specified in the academic calendar. Students see and verify the marks. Grievances of students, if any, are attended and resolved before finalization of the scores. The college level monitoring committee (CLMC), headed by the Principal and convened by senior faculty member, makes sure that the calendar is closely followed.

1.3 - Curriculum Enrichment

1.3.1 - Institution integrates crosscutting issues relevant to Professional Ethics, Gender, Human Values, Environment and Sustainability into the Curriculum

A large number of courses have been designed with the perspective of Enhancing environmental awareness, human values and gender equality. The second semester English common course (all UG programs) with the title 'Environmental studies' (EN1211.1) focuses on themes like renewable and non-renewable resources, conservation of natural resources and biodiversity, and disaster management. Introduction to Gender Studies (BAHE 155), is designed to appreciate gender as a socio-cultural concept. Philosophy of Values (PL 1131) sheds light on the definition and classification of values. Gandhian values of truth and non-violence are taught in the course on Gandhian philosophy (PL 1132, PY 241). Peace studies (PY 241) taught at UG and PG levels shed light on peace as a value. Applied Ethics (PL 1642, PY224) sensitize the students about gender ethics, environmental ethics and professional ethics. The Malayalam course Prakrithi: Sidhanthavum Avishkaravum (ML1331) discusses ideas related to ecosystem in regional culture and literature. There are courses like Environmental Economics (BE222), Eco-literature in Hindi (HN 1232), and Environmental Physiology (ZO242). Some other courses that teach similar topics are Environmental Studies (BO 1542), Psychology in Context (PC211), and Environmental biology (BO222).

2.2 - Catering to Student Diversity

2.2.1 - The institution assesses the learning levels of the students and organizes special Programmes for advanced learners and slow learners

Government College for Women has effective mechanisms to cater the diverse academic needs of students from different socio-economic and academic backgrounds. As our undergraduate students are from different academic levels (higher secondary education such as Kerala state syllabus, CBSE, ICSE), we support them with appropriate mechanisms to bring the whole group together in the effective conduct of the programmes offered in our campus. Our vision is to fill the gap between the slow learner and the advanced learner and make every student in the campus an 'advanced learner'. The learning levels of the students are continuously assessed by the evaluation criteria of choice based credit and semester system (CBCSS) by tests, assignments and viva -voce. The slow learners are amply supported by special classes and individual doubt clearing discussions. Performance in the continuous evaluation examinations is timely evaluated and the results are shared and discussed with the students. Slow learners are given individual attention in solving their understanding and analysing issues in learning process. We are also giving a very good support to advanced learners. Diverse programmes such as seminars, workshops, interactive sessions, visits etc. are organized in providing those students with much exposure for academic growth and empowerment.

2.3 - Teaching- Learning Process

2.3.1 - Student centric methods, such as experiential learning, participative learning and problem solving methodologies are used for enhancing learning experiences

Our institution follows all possible student centric methods in successful and effective conduct of academic activities in the campus. Opportunities for experiential learning thorough hands-on training are made available to students whenever and wherever possible. The lab courses in science disciplines and in a few literature and arts disciplines are particularly offering great opportunities for experiential learning. The dissertation works included in the curriculum of all UG and PG programmes also provide the students a good opportunity for 'learning by doing'. Student participation in the learning process is given foremost importance. Apart from mere classroom lecturing and demonstrations, students are given enough room for sharing their learning experiences, suggestions and criticisms. Learners are benefitted by getting opportunities in presenting seminars and demonstrations in classrooms as part of the curriculum. Peer teaching with active student participation makes the learning process more enjoyable. Problem solving methods are well adopted in our learning practices. Innovative thinking and analytical skills are considerably improved by these exercises. Though the problem solving approach can be best practised in the science disciplines, in literature and arts disciplines also we are effectively following this approach by analysing and evaluating various cultural, historical, social and economic contexts and scenarios.

2.3.2 - Teachers use ICT enabled tools for effective teaching-learning process. Write

description in maximum of 200 words

ICT enabled tools such as slide presentations, animations, videos, online resources, and online learning management systems such as MOODLE and google classroom are extensively used by our teachers for making the teaching more effective. Most of the classrooms are Wi-Fi enabled. Centralized computer browsing facilities in general library and in a few departments offer great support to the teachers and students in academic activities. Instead of mere classroom lecturing using conventional blackboards, we have provided smart boards, overhead projectors, interactive display panels, televisions, state of the art audio-visual facilities in many of the classrooms to enable the effective teaching. All teachers are well equipped and trained in using all these supporting facilities and this makes their teaching activities more communicative and interactive. Student seminars and presentations also are conducted occasionally using these facilities. College has taken many initiatives by giving training and demonstrations of those tools. Even after the pandemic period, academic community is getting the benefit of these online resources and interactions. AI tools like ChatGPT, ResearchRabbit, Consensus, TeachMate etc are being used by the teachers for teaching and research.

2.5 - Evaluation Process and Reforms

2.5.1 - Mechanism of internal assessment is transparent and robust in terms of frequency and mode. Write description within 200 words.

Internal assessment otherwise known as continuous evaluation as per the guidelines of Choice Based Credit and Semester System (CBCSS) is an important evaluation process in the curriculum of the University of Kerala, to which Government College for Women is affiliated. For UG programs, the CE marks of theory courses are 20% of the final result and for PG programs it comes to 25% of the aggregate. Attendance, assignment, and class tests are the components of the evaluation. The evaluation of each student is meticulously done considering content evaluation, and assessment of the assignments (not less than two assignments are to be submitted by the student in each course), scores obtained by the candidate in the tests conducted (minimum two such tests are conducted for each course in all semesters) are consolidated to get the CE scores. The college strictly follows the guidelines issued by the University of Kerala in awarding the CE marks. The evaluation process is conducted in a very transparent manner by intimating the students regarding the scores given in each component of the evaluation. CE tests and model tests for both theory and practical courses are timely conducted as per the academic calendar published by the University.

File Description	Documents
Any additional information	View File
Link for additional information	https://www.keralauniversity.ac.in/downloads/regulations_2013.pdf

2.5.2 - Mechanism to deal with internal examination related grievances is transparent, time-bound and efficient

Internal evaluation, otherwise called Continuous Evaluation (CE) tests are regularly conducted in all theory and practical courses offered in all programs at Government College for Women as per the Regulations of the University of Kerala. The question papers are set as per the pattern of question papers published by the university. The exams are conducted with the same procedures followed in the end-semester university examinations. The results of the CE tests are timely published. Students are given the answer scripts for scrutiny and corrections or changes if any, will be done and the scores will be published. The CE marks are proportionally awarded in the test component of the total CE score and this will be added to the scores of other components (assignment) to consolidate the final CE score, which will be uploaded on the University website. The grievance of students during any stage of the CE process will be reviewed by the Department Level Monitoring Committee (DLMC). Once the marks are forwarded to the Principal level, grievances, if any, will be considered by the College Level Monitoring Committee (CLMC). Any further grievance about CE marks will be taken up by the University Level Monitoring Committee (ULMC).

2.6 - Student Performance and Learning Outcomes

2.6.1 - Programme and course outcomes for all Programmes offered by the institution are stated and displayed on website and communicated to teachers and students.

Since 2020, the University of Kerala has implemented outcome-based syllabi for all undergraduate (UG) and postgraduate (PG) programs affiliated with the institution, including Government College for Women, Thiruvananthapuram.. The revised syllabi clearly define both program-specific outcomes (PSO) and course outcomes (CO), with each topic categorized according to the appropriate cognitive level, such as remember level (R), understand level (U), and apply level (A). These syllabi have been made available on the university's website, with the web link also provided on our college's website. To facilitate this new approach to education, teachers have received training in outcome-based education through seminars and workshops hosted

by the university and other higher educational institutions. Students, too, have been given orientation on the syllabus and curriculum, with the aim of better understanding the outcome-based education model. Hard copies of the syllabi for all programs are available in their respective departments for both teachers and students to reference, while soft copies are distributed to students upon enrollment. The importance of outcome-based education is emphasized during induction meetings for all UG and PG programs. In all classroom and laboratory settings, course outcomes specified against each topic in the syllabi are followed diligently. By adopting this new approach, the University of Kerala and affiliated institutions like our college hope to better prepare students for the demands of the modern workforce by equipping them with a range of practical skills and knowledge. Now, outcome based education is being extended to UG programmes too.

2.6.2 - Attainment of Programme outcomes and course outcomes are evaluated by the institution.

In line with our status as an affiliated institution, all academic activities in our college are coordinated in accordance with the guidelines and instructions of the University of Kerala. The university has adopted an outcome-based syllabus structure. This involves the restructuring and revision of all programmes to incorporate programme outcomes and course outcomes. The revision of syllabi in all disciplines has been overseen by the respective academic board of studies, which includes several faculty members from our college serving as either chairperson or members. The revised syllabus structure has been thoroughly discussed in our academic forums. The achievement of programme outcomes and course outcomes is to be evaluated using appropriate methods. At the college level, this is done through continuous evaluation, which includes written and oral examinations to assess the attainment of envisaged

outcomes. Government College for Women, Thiruvananthapuram strives to implement an outcomebased curriculum format and closely monitor learning progress through active teacher-student interactions.

The student feedback mechanism has a component of outcome based syllabus evaluation which is being collected formally by a questionnaire and informally in personal meetings, alumni meets, get togethers etc.

3.2 - Innovation Ecosystem

3.2.1 - Institution has created an ecosystem for innovations and has initiatives for creation and transfer of knowledge

Government College for Women, Thiruvananthapuram has established a thriving ecosystem for fostering innovation and knowledge creation through its state-of-the-art Instrumentation Facility. As described on the college's website, the facility serves as a catalyst for scientific research and technological advancements, propelling the college to the forefront of academic excellence (source: <https://gcwtvm.ac.in/best-practices/stateinstrumentation-laboratory/>). Instrumentation Facility at the Government College for Women offers a comprehensive range of sophisticated equipment and instruments. Students and faculty members have access to cutting-edge resources, enabling them to engage in groundbreaking research across diverse disciplines. This facility not only enriches their educational experience but also equips them with practical skills in advanced instrumentation techniques. To promote the creation and transfer of knowledge.. It conducts regular workshops, seminars, and training programs that enhance the technical proficiency of participants. Furthermore, the college actively encourages research and innovation through research-oriented events and competitions. Students are motivated to undertake research projects, present their findings at prestigious national and international conferences, and publish their work in renowned scientific journals.

Government College for Women has created an Earn-while-learn program and the program is having linkage with industry by way of regular supply of soaps and intake of inputs in the making.

3.4 - Extension Activities

3.4.1 - Extension activities are carried out in the neighborhood community, sensitizing students to social issues, for their holistic development, and impact thereof during the year

Extension activities are carried out in the neighborhood community, sensitizing students to social issues, for their holistic development, and the impact thereof during the year. The outreach activities are carried out in the neighborhood communities to sensitize students about the social issues that are vital for their holistic development. This also provides a positive outlook towards social issues among the students and the community alike. The NCC, NSS, and UBA cell together with various clubs create awareness campaigns, livelihood training, medical camps, lectures, and invited talks to sensitize the community on issues related to health, nutrition, mental well-being, environmental issues, and behavior modifications. Field visits are carried out as part of the curriculum for gaining first-hand information about the community. The college has adopted five villages under the Unnat Bharat Abhiyan scheme for fostering the holistic development of the villages. Student volunteers and the faculty

regularly visit these villages and carry out activities in collaboration with the local self-help groups, Kudumbasree units, District Panchayats, ICDS projects, Neighbourhood schools, and NGOs.

INFRASTRUCTURE AND LEARNING RESOURCES

4.1 - Physical Facilities

4.1.1 - The Institution has adequate infrastructure and physical facilities for teaching- learning. viz., classrooms, laboratories, computing equipment etc.

Government College for Women in Thiruvananthapuram boasts a sprawling campus, spanning across 10.65 acres, nestled in the heart of the city. Its prime location allows for easy accessibility, situated within walking distance from the central bus stand and railway station. Each year, approximately 1000 students enroll in the college, resulting in a vibrant community of more than 3000 students. To cater to the academic needs of its students, the campus is equipped with 20 buildings dedicated to the process of teaching and learning. These structures house a multitude of facilities, including 110 classrooms, 15 science laboratories, 3 instrumentation rooms, 2 museums, 1 psychology lab, and 1 dark room. The college also boasts a Concert Hall for music enthusiasts, a General Library, a Girls Waiting Room, 13 department libraries, 30 staff rooms, 7 seminar halls, and a cooperative store that supports the smooth functioning of academic and co-curricular activities. In addition to the standard laboratories, the campus boasts a centralized common instrumentation facility, exclusively designed to offer access to advanced and specialized scientific instruments. This facility greatly enhances the learning experience for students pursuing scientific disciplines.

4.1.2 - The Institution has adequate facilities for cultural activities, sports, games (indoor, outdoor), gymnasium, yoga centre etc.

Government College for Women in Thiruvananthapuram showcases an exceptional display of talent and proficiency in the realms of arts, sports, and cultural activities, leaving an indelible mark in state and national-level competitions. The cornerstone of its cultural activities is the grand auditorium, accommodating an impressive audience of 1000. In addition to this magnificent venue, the college utilizes various other spaces for cultural events, such as the Open Auditorium, Assembly Hall, Concert Hall, and several Seminar Halls dedicated to subjects like Chemistry, Physics, Zoology, Botany, English, ORICE, and Conference rooms, not to mention the classrooms. The college places great emphasis on sports, providing students with comprehensive training in an extensive array of disciplines.

From football to handball, rugby to netball, and softball to baseball, students have ample opportunities to excel. The college also offers coaching in cricket, kabaddi, kho-kho, hockey, archery, fencing, ball badminton, shuttle badminton, table tennis, tennis, judo, boxing, wrestling, weightlifting, powerlifting, wushu, taekwondo, and athletics. The institution is well-equipped with all the necessary sporting equipment, including items like canopies, discuses, javelins, and archery bows. Furthermore, yoga sessions are conducted in the multi-purpose indoor hall, promoting holistic well-being among the students.

4.2 - Library as a Learning Resource**4.2.1 - Library is automated using Integrated Library Management System (ILMS)**

The Government College for Women in Thiruvananthapuram boasts a remarkable and venerable institution: its library, established in 1897, stands as one of the oldest college libraries in Kerala. In 2017, the library operations underwent a significant transformation with the implementation of KOHA, specifically version 16.05.05.

KOHA presents an unparalleled advantage by offering

comprehensive customization and absolute control over library data, all at a fraction of the cost associated with proprietary systems. This remarkable software caters to the diverse requirements of various libraries and excels in its web accessibility and user-friendly interface.

At its core, KOHA functions as an Integrated Library Management System, showcasing an array of remarkable features that streamline operations: The full catalogue module empowers library staff to capture detailed information about all library items. This module adheres to MARC standards and is also z39.50 compliant, enabling simplified data entry and exchange. The circulation module automates the borrowing and management of library items, seamlessly integrating with the Online Public Access Catalogue (OPAC). Users can conveniently track the items they have borrowed or reserved. The OPAC module provides library users with a straightforward and intuitive interface to perform various tasks, including item searches, reservations, and suggestions for new items.

4.4.2 - There are established systems and procedures for maintaining and utilizing physical, academic and support facilities - laboratory, library, sports complex, computers, classrooms etc.

We consistently prioritize the appropriate utilization and upkeep of all facilities and infrastructure within our institution, including laboratories, libraries, sports complexes, internet and computer facilities, and classrooms. Our primary focus is on maximizing the use of all available resources to foster academic growth and development. To ensure the smooth functioning of maintenance and repair activities, we have established a well-structured mechanism, receiving support from the state government, UGC, and RUSA. Minor maintenance and repair tasks are facilitated by college-level bodies such as the Parent Teacher Association (PTA), College Development Council (CDC), and Continuing Education Sub Centre (CESC). The utilization of funds strictly adheres to the regulations set by the state government, following standardized protocols that guarantee quality and financial integrity. Asset maintenance projects are undertaken on a quinquennial basis, with financial assistance readily sanctioned by the relevant authorities whenever necessary. Repairs and painting activities are promptly carried out to maintain the condition of our infrastructure. Notably, several blocks within our college possess historical significance, being over a century old and recognized as heritage buildings. We meticulously handle the maintenance of these sections, adhering to the prescribed guidelines for the preservation of heritage monuments as stipulated by the Government of India.

5.3.2 - Institution facilitates students' representation and engagement in various administrative, co-curricular and extracurricular activities (student council/ students representation on various bodies as per established processes and norms)

The administration at Government College for Women is committed to prioritizing the needs and experiences of students in all

aspects of college life. Efforts are made to streamline the admission process and provide comprehensive student support services. Regular feedback from students is collected and analyzed to enhance the quality of teaching and infrastructure. An elected student body headed by the union chair person is responsible for coordinating and overseeing all student-centered activities on campus. The union chairperson is also a member of the college council, an advisory body that assists the Principal in managing day-to-day operations and resolving issues of general interest. Other members of the student union include the vice-chairperson, general secretary, arts club secretary, sports secretary, magazine editor, two university union councilors, and five class representatives. The department associations, headed by elected student secretaries, organize various academic and extracurricular events. Additionally, students are given representation in important bodies such as IQAC, library advisory committee, college development council, and canteen committee. Students also have the opportunity to participate in co-curricular programs and additional skill acquisition programs (ASAP) to enhance their overall skill set.

5.4 - Alumni Engagement

5.4.1 - There is a registered Alumni Association that contributes significantly to the development of the institution through financial and/or other support services

The role of alumni in the growth and development of academic institutions is crucial. The oldest women's college in the state of Kerala boasts a large number of alumni from diverse strata of society, including former teachers and researchers. The alumni association conducts regular activities with good participation and programs, as many present faculty members are former students of the college. The executive body of the alumni association is constituted for the smooth functioning of the association, and there are alumni associations for various departments. The alumni provide financial support to the departments and offer scholarships and awards to meritorious students. They also donate books and other needed items to the respective departments and classes and offer financial support to economically backward students on campus. In times of distress, the alumni raise funds and contribute to relief activities. The college invites alumni for presentations on issues to be addressed, and an alumni member is included in the IQAC to monitor and evaluate activities. The alumni association also offers academic support through special classes and invited talks. The alumni members are a valuable source of input for drafting the institutional development plan and implementation of infrastructure development and academic activities.

GOVERNANCE, LEADERSHIP AND MANAGEMENT

6.1 - Institutional Vision and Leadership

6.1.1 - The governance of the institution is reflective of and in tune with the vision and mission of the institution

Government College for Womenen visions providing education in basic science and humanities, with a mission to empower girl students to face the world with courage and confidence. Teachers are the backbone, facilitating curricular, co-curricular, and extracurricular activities. They contribute to course design, curriculum development, teaching, and evaluation. Many teachers hold positions in the University of Kerala's academic bodies. The College council, led by the principal and comprising department heads and elected teachers, coordinates campus activities. The college development council, with the principal and select teachers, receives support from the district administration for campus development. The Parent Teacher Association monitors college functioning and offers support. Our teachers focus on promoting research and learning, with an active researchcommittee. They foster academia-industry linkage and equip students with advanced techniques to solve societal problems. Teachers run the common instrumentation center and facilitate nonformal educational services. They transform students into balanced personalities through monitoring bodies and activities. Teachers also coordinate clubs, cells, NSS, NCC, arts, sports events, and serve on various committees. Students are the centre of the system and the College offers the platform for excelling in academic and organisational leadership making them bold and powerful

citizens in the country.

6.1.2 - The effective leadership is visible in various institutional practices such as decentralization and participative management.

Government College for Women ensures decentralization and participative management in academics, administration and finances. For eg, the mode of utilization of various funds sanctioned by the Department of Collegiate Education meet the developmental and consumable requirements of the college. The College has been given the devolution rights of the funds generated by it. Besides, the government provides matching grants to complement our efforts. Procurement of furniture, Laboratory and library maintenance, regular renovation and repair, conducting academic programmes like seminars and workshops are met with the utilization of plan funds. All the institutional development activities are outlined first in College Council, chaired by the principal, and after preliminary level discussions on various proposals, the Heads of Departments would later convene department level staff meetings and the proposals are drafted based on the collective efforts of the teaching community and students. The preliminary level proposals are further consolidated and discussed in college council meetings for finalization. In the case of department level and college level fund proposals to the agencies like UGC, and Dept. of Higher education, Govt. of Kerala, also similar procedure is followed. The purchase committee of the college coordinates the purchase process

6.2 - Strategy Development and Deployment

6.2.1 - The institutional Strategic/ perspective plan is effectively deployed

Government College for Women ensures that the perspective plan is effectively deployed. It starts with the making of the plan itself. The methodology of preparing Institutional Development Plan itself was such a process. Since preparation of IDP requires collective wisdom, we have tried to incorporate views of all possible stakeholders. To assist the College planning board for preparing the proposal, a meeting of all the Heads of Departments and one representative from each department was formed. In the meeting, suggestions regarding College level (overhead) academic and associated plans were sought, department level academic and associated inputs were solicited. The Planning Board reviewed the progress of the tasks through the departmental representatives periodically. These proposals were finally consolidated by the core committee. The committee also held series of meetings with students, student representatives, parents, parent representatives, elected representatives etc. All the suggestions have been noted down and presented before the committee meeting and incorporated after discussions. The College also has multiple channels of communication in social media and personalised systems for sharing the Institution's vision. Staff meetings and committee meetings are regularly held and all members are part of many committees which gives them a flavour of the vision.

6.2.2 - The functioning of the institutional bodies is effective and efficient as visible from policies, administrative setup, appointment and service rules, procedures, etc.

Government College for Women is headed by a special grade Principal who is assisted in the work of administration by a body of ministerial staff headed by the Administrative Assistant. The academic activities of the College are orchestrated by the College council that comprises the Principal, Vice-Principal, the twenty-four Heads of the Departments and elected representatives. The activities of

each department are spearheaded by the Heads of the Department who work in consultation with the faculties and students of the department. The faculty as well as the ministerial staff are appointed through Kerala PSC and are bound by the Kerala Service Rules. The college administration is also advised by the College Development committee headed by the District Collector. Principal, teachers, students, administrative staff and PWD assistant engineers are its members. The college has a dynamic IQAC that intervenes constructively in the curricular and extracurricular activities of the college. The PTA of the college plays a pivotal role in the smooth functioning of the college. The college has a Planning Board that acts as an advisory board to the principal. CLMC looks into aspects such as curriculum planning, conduct of internal and external examinations, and uploading of data.

6.3.5 - Institutions Performance Appraisal System for teaching and non- teaching staff

Government College for Women, Thiruvananthapuram, has an effective performance appraisal system for ensuring quality in academics and administration. Self and peer evaluations, along with academic audits, ensure standards in higher education. The college has a robust performance assessment system as part of its quality assurance program. Annual Quality Assurance Reports reflect curricular, co-curricular, and extracurricular activities. Teachers undergo annual evaluations through performance-based appraisal reports, summarizing their teaching workload, academic roles, examination responsibilities, participation in events, research contributions, and awards. Claims made by teachers are verified by the department head, IQAC team, and certified by the Principal. The evaluation process encourages self-evaluation and career development. The system accurately assesses individual curricular growth and academic output. Placement and promotion follow UGC regulations implemented by the Department of Collegiate Education, Govt. of Kerala. IQAC mediates the placement and promotion processes, forwarding applications to higher authorities. The AQARs provide consolidated data for teaching staff appraisals. IQAC analyzes self-appraisal reports for quality

enhancement, research data, and infrastructure planning. Institutional development plans are based on staff performance and evaluation. Non-teaching staff promotions follow the Kerala Service Rules (KSR) through confidential reports prepared by the controlling officer

6.4 - Financial Management and Resource Mobilization

6.4.1 - Institution conducts internal and external financial audits regularly Enumerate the various internal and external financial audits carried out during the year with the mechanism for settling audit objections within a maximum of 200 words

Our college, a government institution under the Dept. of Collegiate Education in Kerala, undergoes annual internal and external audits. Internal audits include department-wise stock verifications by staff, followed by a formal annual audit of all assets. A stock verification committee facilitates this process, reporting any discrepancies found in the stock registers. Irreparably damaged items are listed for disposal. Additionally, the college's accounts section conducts internal financial audits to ensure compliance with state and department rules. External audits by the Department of Collegiate Education thoroughly examine financial transactions, attendance records, and other aspects. The office of the Accountant General occasionally audits previous years' accounts. Audits by chartered accountants cover accounts of PTA, Continuing Education Sub Centre, UGC, and DSTFIST. The Government of Kerala's stores and purchase department conducts audits every five years, including funded seminars and workshops. Queries and objections raised during audits are addressed, and refunds are made as required. These audits ensure adherence to rules and proper financial conduct. The IQAC conducts internal and external academic, administrative, green, environment, and energy audits annually.

6.4.3 - Institutional strategies for mobilization of funds and the optimal utilization of resources

Government College for Women receives financial support from diverse sources. As a government institution in Kerala, our college relies on annual plan fund allocations for education. These funds cover expenses for books, laboratory supplies, furniture, ICT resources, and maintenance. Special assistance enables us to construct new buildings and upgrade existing facilities. Additionally, national agencies such as UGC, RUSA, and DST (FIST) contribute to institutional development and procurement of instruments. Detailed proposals and committee discussions ensure careful fund allocation. The college planning board and Staff Council oversee implementation, while departmental funding decisions are made in council meetings. The purchase and projects committees handle instrument purchases, while the building committee monitors construction and renovation, ensuring compliance with green protocols. Fund raising efforts involve the Parent Teacher Association, Alumni Association, and College Development Council. PTA funds support student support and amenities. We collaborate with the Centre for Adult Continuing Education & Extension of the University of Kerala, receiving financial support for our facilities. Internal revenue is generated by renting out auditoriums and providing instrumentation facilities. This revenue covers operational and maintenance costs. The college infrastructure is also utilized for external examinations and distance education programs. Our planned approach to fund mobilization and resource utilization is highly valued.

6.5 - Internal Quality Assurance System

6.5.1 - Internal Quality Assurance Cell (IQAC) has contributed significantly for institutionalizing the quality assurance strategies and processes

Government College for Women, Thiruvananthapuram, has made significant strides in institutionalizing quality assurance strategies and processes, thanks to the commendable efforts of its Internal Quality Assurance Cell (IQAC). The IQAC has played a pivotal role in ensuring and enhancing the overall quality of education at the college. GCW IQAC has implemented various initiatives aimed at promoting academic excellence, research, and the overall development of the institution. It has formulated and executed policies to ensure adherence to quality standards in teaching, learning, and evaluation processes. The IQAC has been instrumental in conducting periodic academic and administrative audits, facilitating the timely introduction of new programs and courses, and continuously monitoring and reviewing the quality of teaching and research. It has also actively engaged in faculty development programs, encouraging teachers to upgrade their skills and knowledge. Furthermore, the IQAC has fostered a culture of research

and innovation by supporting research projects and seminars, and promoting collaborations with other institutions and industries. It has encouraged the faculty to publish their research findings in reputed journals, thereby enhancing the academic reputation of the college.

6.5.2 - The institution reviews its teaching learning process, structures & methodologies of operations and learning outcomes at periodic intervals through IQAC set up as per norms and

recorded the incremental improvement in various activities

Despite having ten research departments in Government College for Women, but faced challenges with limited research guides and subpar publications. The IQAC improved research facilities and enrolment of external supervising teachers. Our faculty achieved publications in peer-reviewed journals with high impact factors. The college has internet connectivity, computer labs, and smart classrooms. The Women's College Library, established in 1897, received funding and a new building. It has centralized networking, UPS, internet access, and a cyber center. The library has sections for reading, periodicals, references, and general and

Malayalam books. It also offers research facilities and eresources. With above 1.25 lakh books and subscriptions to newspapers and periodicals, the library is fully automated and provides access to e-books and e-journals through NLIST. It is part of a library cluster, conducts extension activities, and offers support to all members. Opening from 9:30 am to 4:30 pm on working days, it plays a crucial role in the college community. The IQAC coordinator briefs the measures needed to improve the academic quality of different disciplines and students in all the council meetings and interactions. The IQAC facilitates teachers in their career advancement scheme (CAS) as it is the nodal agency to actualise CAS in Kerala.

INSTITUTIONAL VALUES AND BEST PRACTICES

7.1 - Institutional Values and Social Responsibilities

7.1.1 - Measures initiated by the Institution for the promotion of gender equity during the year

During the academic year 2022-23, the Institution Govt. College for Women undertook various measures to promote gender equity and create an empowering environment for its students. Recognizing the importance of gender equality, the institution implemented numerous initiatives and programs. To address gender-based discrimination and violence, the college organized workshops and seminars on gender sensitization. These sessions aimed to raise awareness about gender biases and stereotypes, encouraging students to challenge and overcome them. Additionally, the college collaborated with local NGOs and experts in the field to provide counseling and support services for students who may have experienced gender-related issues. In order to empower women academically and professionally, the institution offered skill development programs and career guidance workshops. These initiatives equipped female students with the necessary knowledge and skills to excel in their chosen fields, fostering gender equity in education and the workforce. Furthermore, the college actively encouraged female students to participate in extracurricular activities and leadership roles, providing opportunities for their personal growth and self-expression.

Annual gender sensitization action plan	<p><u>Government College for Women, Thiruvananthapuram Gender Sensitisation Action Plan Gender sensitisation action plan for a Government College for Women tries to implement comprehensive strategies to promote gender equality, prevent gender-based violence, and create an inclusive environment. 1. Awareness and Training Programs Workshops and Seminars: ? Conduct regular workshops and seminars on gender sensitivity, sexual harassment, and gender equality for students, faculty, and staff. ? Invite experts from NGOs, legal professionals, and psychologists to speak on gender issues. Inclusion in Curriculum: ? Integrate gender studies into the curriculum across various disciplines to educate students on gender issues. ? Offer elective courses focused on gender studies, feminist theories, and women's rights. Orientation Programs: ? Include gender sensitisation modules in orientation programs for new students and staff. 2. Support Systems and Reporting Mechanisms Establishment of Committees: ? Form a Gender Sensitisation Committee (GSC) to oversee the implementation of gender sensitisation programs. ? Ensure the presence of an Internal Complaints Committee (ICC) as mandated by the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013. Counseling Services: ? Provide counseling services for students and staff dealing with gender-related issues. ? Train counselors in gender-sensitive approaches. Anonymous Reporting: ? Set up anonymous reporting mechanisms for gender-based violence or harassment. 3. Policy Implementation Anti-Harassment Policies: ? Implement strict anti-harassment policies and ensure they are clearly</u></p>

communicated to all members of the college community. ? Display information about these policies and reporting procedures on notice boards and the college website. Zero Tolerance Policy: ? Adopt a zero-tolerance policy towards gender discrimination and harassment, ensuring swift and strict action against perpetrators. 4. Creating Safe Spaces Safe Campus Initiatives: ? Increase the visibility and accessibility of security personnel on campus. ? Install adequate lighting and surveillance cameras in secluded areas. Women's Help Desk: ? Establish a Women's Help Desk for addressing grievances and providing immediate assistance. 5. Community and Extracurricular Engagement Gender Equality Clubs: ? Encourage the formation of gender equality clubs or societies to engage students in discussions, activities, and projects related to gender issues. Campaigns and Events: ? Organize campaigns, film screenings, and cultural events that promote gender equality and celebrate women's achievements. 6. Evaluation and Feedback Regular Surveys: ? Conduct regular surveys to gauge the effectiveness of gender sensitisation programs and to identify areas needing improvement. Feedback Mechanisms: ? Establish channels for feedback from students, faculty, and staff to continuously improve gender sensitisation efforts. Annual Reports: ? Prepare and publish an annual report on gender sensitisation activities and their outcomes. Implementation Timeline Short-term (1-6 months): ? Form committees and establish reporting mechanisms. ? Conduct initial workshops and orientation programs. ? Launch awareness campaigns and create safe spaces. Medium-term (6-12 months): ? Integrate gender studies into the curriculum. ? Organize regular events and seminars. ? Evaluate initial outcomes

	and adjust strategies as needed. Long-term (1-3 years): ? Ensure sustainable practices through policy enforcement. ? Continue regular training and awareness programs. ? Publish annual reports and adapt plans based on feedback. Approved by the College Staff Council dt 08.05.2023

7.1.3 - Describe the facilities in the Institution for the management of the following types of degradable and non-degradable waste (within 200 words) Solid waste management Liquid waste management Biomedical waste management E-waste management Waste recycling system Hazardous chemicals and radioactive waste management	
Govt. College for Women follows a three prong strategy for waste management - reduction of waste generation, improving facilities for in and off campus processing of waste, promoting a clean campus through behavioural change programmes. Reduction of waste generation is mainly achieved through adoption of green protocol. Steel cups and containers, cloth banners, bags etc which are alternatives to plastic materials are promoted while conducting functions. The NSS unit of the college lends steel containers for use in various functions. The quantity of organic waste generated in the college being less, the college relies mainly on off campus processing of the same. Plastic wastes in the campus are collected by Trivandrum Municipal Corporation on a monthly basis. The biodegradable waste	

generated in all blocks including that of the canteen is being packed and transported to the waste processing centre of Trivandrum Municipal Corporation on a daily basis. Fourteen incinerators are installed various spots in the college for the disposal of sanitary pads. Besides, we are on the path to sustainable menstruation and minimise even use of sanitary pads among menturators. We follow a green campus policy where no single use plastics are permitted.

7.1.8 - Describe the Institutional efforts/initiatives in providing an inclusive environment i.e., tolerance and harmony towards cultural, regional, linguistic, communal socioeconomic and other diversities (within 200 words).

Diversity and inclusion are the fundamental pillars of success within any organization. At our college, we take great pride in cultivating an inclusive academic environment that caters to the needs of both our students and faculty. To foster a spirit of inclusiveness, various departments and clubs have orchestrated a wide array of activities. Moreover, we actively encourage our students to engage in competitions organized by diverse linguistic groups, such as the Saiva Prakasha Sabha. On the academic front, we arranged an applied theory workshop in Tamil to familiarize our students with theoretical concepts in their native language. Symbolizing the sense of community within our student body, the Ezhuthani Tree stands tall on our campus as a visual metaphor. Committed to making a positive impact beyond our college walls, our students collaborate with Kanal, an NGO dedicated to women's empowerment, to collect and distribute books to children in tribal settlements. They also organize street plays that shed light on pressing socioeconomic issues faced by young adults. Additionally, our students run "Kootu," a scribe bank, where they assist their visually-impaired college mates, demonstrating remarkable empathy and support.

7.1.9 - Sensitization of students and employees of the Institution to the constitutional obligations: values, rights, duties and responsibilities of citizens

Sensitizing students and employees of an institution to constitutional obligations is a crucial aspect of fostering a well-informed and responsible citizenry. At Government College for Women, such sensitization has been achieved through a variety of programs and initiatives that emphasize values, rights, duties, and responsibilities of citizens.

1. Curriculum Integration:

- **Civics and Ethics Courses:** Incorporate subjects related to constitutional law, human rights, and ethics into the curriculum. Courses can cover the Indian Constitution, fundamental rights and duties, and the importance of democratic values.

2. Workshops and Seminars:

- **Guest Lectures:** Invite experts, such as legal scholars, human rights activists, and government officials, to speak on constitutional obligations and civic responsibilities.

3. Awareness Campaigns:

- **Posters and Brochures:** Distribute informational materials across the campus to educate about fundamental rights, duties, and constitutional values.
- **Digital Campaigns:** Use social media, emails, and the institution's website to share information and resources related to constitutional obligations.

4. Celebration of National Days:

- **Constitution Day:** Organize events on Constitution Day (November 26th) to commemorate the adoption.
- **Republic Day and Independence Day:** Host events that celebrate these significant days with programs that highlight the importance of the Constitution and the duties of citizens

7.1.11 - Institution celebrates / organizes national and international commemorative days, events and festivals

Celebrations are reminders of our legacy with the past and connections to the future. It brings together all segments of the stakeholders of the campus, students, teachers and noteaching segment and parents too. The college believes in celebrating events and festivals as an integral part of learning and building a strong cultural bonding. The College celebrates the national and international days, events and festivals throughout the year. After the loss of almost two

academic years due to the pandemic, in academic year 2022-23, we celebrated the following days like Onam, Christmas, Ramzan, Women's Day, World Environment Day, International Yoga Day, National Mathematics Day, National Statistics Day, Independence Day, Republic Day, National Unity Day, Teachers Day, Birth Anniversary of Mahatma Gandhi. The college also believes that education will allow the students to platform where they know the diversity and thus tolerance. The College organizes all these activities throughout the academic year. These activities of celebrations and organizations of important events, commemorative days and festivals have become influential and the participation of all students from different walks of life is amazing. Importance of national festivals and events preach them and remind us about our country's cultural heritage and history.

7.3.2 - Plan of action for the next academic year

Extension activities are carried out in the neighborhood community, sensitizing students to social issues, for their holistic development, and the impact thereof during the year. The outreach activities are carried out in the neighborhood communities to sensitize students about the social issues that are vital for their holistic development. This also provides a positive outlook towards social issues among the students and the community alike. The NCC, NSS, and UBA cell together with various clubs create awareness campaigns, livelihood training, medical camps, lectures, and invited talks to sensitize the community on issues related to health, nutrition, mental well-being, environmental issues, and behavior modifications. Field visits are carried out as part of the curriculum for gaining first-hand information about the community. The college has adopted five villages under the Unnat Bharat Abhiyan scheme for fostering the holistic development of the villages. Student volunteers and the faculty regularly visit these villages and carry out activities in collaboration with the local self-help groups, Kudumbasree units, District Panchayats, ICDS projects, Neighbourhood schools, and NGOs. Being the 125th year of the establishment of the College, a series of academic and cultural programs are planned and a focus on state-of-the-art infrastructural expansion
